

Nested tables: three levels, merged cells, mixed borders

The outer table's middle cell holds a level-2 table whose first data cell holds a level-3 table. Borders vary per level (single/dashed/double/dotted); cells carry `gridSpan` and `vMerge` merges; the right column uses vertical (bottom-to-top) text.

|                                                                                                                                                                                                                                         |                                                                           |               |          |   |   |   |             |
